Terms of service

Last updated November 8, 2017

Welcome to the future of mapping! We're glad you're here.

- 1 This website, Mapbox.com (the "site"), is owned and operated by Mapbox, Inc. ("**Mapbox**", "**we**" or "**us**"). By using the site, services provided on the site, or map content we make available to you through the services (collectively, "**Services**"), you agree to be bound by the following Terms of Service, as updated from time to time (collectively, the "**Terms**"). Please read them carefully. If you don't agree to these Terms, you may not use the Services.

Signing up

- 2 In order to use most Services, you must register for a Mapbox account. When you use our application program interfaces (APIs), each request to an API must include one of your account's unique API keys.
- 3 Please carefully guard the security of your account and monitor use of your API keys. You are responsible for all use of the Services under your account, whether or not authorized, including any use of your API keys. At our discretion, we may make limited exceptions to this policy for unauthorized use of your account if you notify us of the problem promptly.
- 4 You must be 13 years or older to use the Services. By registering as a user or providing personal information on the site, you represent that you are at least 13 years old.
- 5 If you are entering into this agreement on behalf of your company or another legal entity, you represent that you have the authority to bind that entity to these Terms, in which case "**you**" will mean the entity you represent.
- 6 If you are a United States government user or otherwise accessing or using any Mapbox service in a U.S. government capacity, these Terms are amended as set out in our [U.S. Government Terms of Service \[/usg-tos/\]](#).

Our services

- 7 Subject to these Terms, we grant you a non-exclusive, non-transferable, non-sublicensable, revocable license and right to:
- Use the Services to develop online services and online, desktop, or mobile applications;
 - Make the Services available to end users in connection with their use of your publicly available online services and publicly available online, desktop, or mobile applications; and
 - Make up to 2,000 prints per year of vector tiles and satellite imagery up to zoom level 12 in flyers, posters, or other short publications, in each case, for non-commercial purposes. Commercial printing and printing satellite imagery from zoom levels 13-22 is prohibited and requires an Enterprise plan.
- 8 You may only use the Services for non-commercial purposes, for commercial applications publicly accessible without charge, and for commercial mobile applications. If you are subscribed to either our Commercial or Premium Plans, you may also use the Services in private, commercial applications for up to 250 Seats. A "**Seat**" is a distinct end user--i.e., an actual human being--that can access an application or web service you provide. Multiple users are not allowed to use the same Seat, even if they use it at different times.
- 9 You may not use the Services in connection with any application or site to track moving physical assets (e.g., personnel or vehicles) on a map, unless you have either a Commercial or a Premium plan. Tracking means to locate an asset based on latitude/longitude coordinates provided to your application via a sensor. If you subscribe to our Premium or Commercial plans, you may track up to 1000 assets.
- 10 You may only use our Navigation SDK or results from our Directions API in or for real-time turn-by-turn navigation (regardless of mode of transportation) for up to 50 Seats.
- 11 If you want to make use of the Services outside this description--such as in non-public applications, videos, or bulk print media--[contact us \[mailto:enterprise@mapbox.com\]](mailto:enterprise@mapbox.com) about an Enterprise plan.

Mapping APIs

- 12 The "**Mapping APIs**" means the Maps API, Styles API, Static API, Static (Classic) API and Tileset API. You must access and use map tiles, static map images, style files, glyphs, and sprites that we provide to you (collectively "**Map Assets**") only through our APIs.
- 13 You may temporarily cache Map Assets on end-user devices (e.g., laptops, smartphones, or tablets) for offline use, but each device must populate its cache using direct requests to the Mapping APIs and content from a cache may only be consumed by a single end user. On mobile devices, you may only cache up to the limits set in the applicable Mapbox SDK, and you may not circumvent or change those limits. You may not redistribute Map Assets, including from a cache, by proxying, or by using a screenshot or other static image instead of accessing Map Assets through the Mapping APIs. You may not scrape or download Map Assets for any purpose other than temporary offline caching on a single end user's device.

- 14 You may use Studio or third-party software to trace Mapbox maps solely comprised of satellite imagery ("**Mapbox Satellite Imagery**") and produce derivative vector datasets (i) for non-commercial purposes and (ii) for OpenStreetMap. If you are on at least a Premium or Commercial plan, you may also use Studio to trace Mapbox Satellite Imagery for commercial purposes, but may only trace up to 100 points, lines, or polygons per year. Except as permitted by this paragraph, you may not trace Mapbox maps.
- 15 You must display Mapbox branding (unless specifically permitted by us in writing) and provide attribution, including an "Improve this map" link, on all maps as [outlined in our documentation \[/help/how-attribution-works/\]](#) .
- 16 For other use cases or additional rights, please contact us about an Enterprise plan.

Geocoding API

- 17 You may only use responses from the Geocoding API ("**Geocodes**") in conjunction with a Mapbox map. You may not export, store or cache Geocodes. You may not resell or re-syndicate Geocodes to other publishers or third parties (except to your end users or as an integrated part of your application). You may use latitude and longitude information from Geocodes to position results on a map, but you may not display the latitudes or longitudes directly to end users. You may only query the Geocoding API in response to human user queries and human app interactions; you may not perform bulk or automated queries.
- 18 You may not use results from the Geocoding API (a) to develop a general database of locations or addresses for any neighborhood, city, state, country, or other such geographic region, or to develop any other general purpose digital map database; (b) to develop or test another geocoding application or API; (c) in connection with navigation products preinstalled or integrated into automobiles by auto manufacturers, auto electronic component manufacturers or auto system integrators; or (d) for in-flight navigation. You may not use point of interest results from the Geocoding API (a) for lead generation, advertiser targeting or advertising analysis; (b) to create or augment user profiles or audience segments based on or derived from points of interest results (including, for clarity, calculations or analysis of footfall traffic for any point of interest); or (c) for geofencing -- i.e. to give end users real-time mobile alerts or personalized content based on the end user's current proximity to a point of interest (giving users content in response to searches or map interactions does not constitute geofencing).
- 19 Upon written notice to you, we may audit your use of the Geocoding API to ensure it is in compliance with this section. The terms of this section are intended for the direct benefit of our third party suppliers and may also be enforced directly by those suppliers.
- 20 For other use cases or additional rights, please contact us about an Enterprise plan.

Directions, Matrix, Optimization and Map Matching APIs

- 21 | Results from the Directions, Matrix, Optimization and Map Matching APIs may only be used in conjunction with a Mapbox-provided map, and may not be exported, stored or cached.
- 22 | For other use cases or additional rights, please contact us about an Enterprise plan.

Mapbox on mobile

- 23 | To use Mapbox Services on mobile, your app must use one of the Mapbox Maps SDK for Android, Mapbox Maps SDK for iOS, Mapbox Maps SDK for macOS, Mapbox Maps SDK for React Native, Mapbox Navigation SDK for Android, Maps SDK for Unity or Mapbox Navigation SDK for iOS (each, a "Mapbox Mobile SDK") as its exclusive means of accessing Mapbox Services supported by the SDK. At any given time, the Mapbox Mobile SDK that you use must be the version that has been released within the immediately preceding 12 months (unless no such update has been released). The Mapbox Mobile SDK you use will periodically send location and usage data (telemetry) to us, which we may use to improve our maps, provide information back to you about how your app is being used, and for other purposes consistent with our privacy policy.
- 24 | For all mobile applications that use Mapbox Services, you must:
- Limit use of your app to users at least 13 years of age or disable information sharing for users younger than 13.
 - Obtain your users' affirmative express consent before you access their location (the automatic notifications in iOS and Android suffice).
 - Disclose that location and usage data will be shared with Mapbox. Notification in your privacy policy is the minimum permitted, but we suggest you also offer a notification directly in your product interface the first time sharing is activated.
 - Allow users to opt out of location data sharing using one of the methods described in our developer documentation.
 - Comply with any additional local requirements related to information access or sharing.
 - Not interfere with or limit the data that the Mapbox Mobile SDK sends to us, whether by modifying the SDK or by other means, except as otherwise required by the Terms.
 - Not attempt to identify specific individuals, vehicles, or entities with which telemetry data that we provide to you via the developer dashboard is associated (e.g. by re-identifying data).
- 25 | For more detail, please review our [privacy policy](/privacy/) , [telemetry page](/telemetry/) , and [law enforcement guidelines](/law-enforcement/) .

Studio

- 26 | If you use the places search function provided in the Studio dataset editor to place point features on a map, you must (1) only use such features internally, (2) not resell, sublicense or share such points with any third party, and (3) only use such points in compliance with the Geocoding API terms set forth above.

Unlawful and other unauthorized uses

- 27 | You agree to comply with all applicable laws, regulations, and third party agreements in your use of the Services.
- 28 | You may not use the Services in any manner that could damage or overburden the Services or interfere with any other party's use of the Services.
- 29 | You may not use the Services to:
1. Disseminate material that is abusive, obscene, pornographic, defamatory, harassing, grossly offensive, vulgar, threatening, or malicious;
 2. Aid or implementing practices violating basic human rights or civil liberties. For the avoidance of doubt, you may not use the Services to assist in the creation of databases of identifying information for any government to abrogate any human rights, civil rights, or civil liberties of individuals on the basis of race, gender or gender identity, sexual orientation, religion, or national origin;
 3. Disseminate or store material that infringes the copyright, trademark, patent, trade secret, or other intellectual property right of any person;
 4. Create a false identity or otherwise attempting to mislead others as to the identity or origin of any communication;
 5. Export, re-export, or permit downloading of any content in violation of any export or import law, regulation, or restriction of the United States and its agencies or authorities, or without all required approvals, licenses, or exemptions;
 6. Interfere with or attempt to gain unauthorized access to any computer network;
 7. Host with, transmit to or provide to us any information that is subject to specific government regulation, including, without limitation, Protected Health Information (as defined in the U.S. Health Insurance Portability and Accountability Act, as amended), financial information (as regulated by the U.S. Financial Services Modernization Act, as amended), consumer reports and consumer-reporting information (as regulated by the U.S. Fair Credit Reporting Act, as amended) and information subject to export control or economic sanction laws;

8. Operate dangerous businesses such as emergency services or air traffic control, where the use or failure of the Services could lead to death, personal injury or significant property damage;
9. Transmit viruses, trojan horses, or any other malicious code or program; or
10. Engage in any other activity reasonably deemed by Mapbox to be in conflict with the spirit or intent of these Terms.

- 30 You may not modify, create derivative works from, reverse engineer, or attempt to derive any source code from the site's software, except as expressly permitted by a written license from us. Further, unless expressly prohibited under applicable law, you may not use the Services to develop, test, validate and/or improve any service or dataset that is a substitute for, or substantially similar to, the Services (including any portion thereof).

End users and notification

- 31 You may not allow your end users or other third parties to use the Services in any way that would be a violation of these Terms if done by you, and you agree to take reasonable efforts to prevent such use. You agree to promptly notify Mapbox in writing if you become aware of any misappropriation or unauthorized use of the Services.

Documentation

- 32 In addition to the requirements above, you agree to adhere to the policies posted on this site in conjunction with the Services, including accompanying documentation. Those policies are incorporated by reference into these Terms.

Charges and payment

- 33 Some of the Services require payment. We may charge your credit card on an ongoing basis in advance of providing Services or as needed for prepayments for your subscription fee, any applicable sales taxes, and any other charges you may incur in connection with your use of Mapbox Services. The subscription fee is billed in full on the first day of each billing period, unless and until you cancel your subscription.
- 34 Sometimes even you don't know how popular your maps are going to be. If your account exceeds the map views allowed by your plan, we may charge you overage fees at the end of your billing period. Overage rates vary by plan. You agree to pay overage fees for all usage including requests that result from unexpected traffic.
- 35 We are not responsible for any bank fees, interest charges, finance charges, over draft charges, or other fees resulting from charges billed by Mapbox. Currency exchange settlements will be based on agreements between you and the provider of your credit card.

- 36 | All charges are non-refundable unless expressly stated otherwise, or otherwise provided by applicable law.

Ownership

Your content

- 37 | You retain ownership of all content that you contribute to the Services via Mapbox Studio, Mapbox Studio Classic, the Dataset API and the Uploads API, excluding any content that you receive from Mapbox ("**Your Content**").
- 38 | Limited to the purpose of hosting Your Content so that we can provide the Services to you, you hereby grant Mapbox a non-exclusive, worldwide, royalty-free, fully paid-up, transferable and sublicensable right and license to use, copy, cache, publish, display, distribute, modify, create derivative works, and store Your Content and to allow others to do so. This right and license enables Mapbox to host and mirror your content on its distributed platform. You warrant, represent, and agree that you have the right to grant Mapbox these rights.
- 39 | On termination of your account, Mapbox will make reasonable efforts to promptly remove from the site and cease use of Your Content; however, you recognize and agree that caching of or references to the content may not be immediately removed.

Our content and third party content

- 40 | Other than Your Content, all content displayed on the site or accessible through the Services, including text, images, maps, software or source code, are the property of Mapbox and/or third parties and are protected by United States and international intellectual property laws. Logos and product names appearing on or in connection with the Services are proprietary to Mapbox or our licensors. You may not remove any proprietary notices or product identification labels from the Services.

Feedback

- 41 | You agree that we may freely exploit and make available any and all feedback, suggestions, ideas, enhancement requests, recommendations or other information you provide relating to the Services.

Publicity

- 42 We're proud to have you as a customer. During the term of this agreement, you hereby grant us a worldwide, non-exclusive, royalty-free, fully paid-up, transferable and sublicensable license to use your trademarks, service marks, and logos for the purpose of identifying you as a Mapbox customer to promote and market our services. But if you prefer we not use your logo or name in a particular way, just let us know, and we will respect that.

Account cancellation or suspension

- 43 We don't want you to leave, but you may cancel at any time. However, we do not give pro-rated refunds for unused time if you cancel during the middle of a billing cycle.
- 44 If you breach any of these Terms, we may immediately without notice cancel or suspend your account and the limited license granted to you hereunder automatically terminates, without notice to you. Upon termination of the limited license, you agree to immediately destroy any materials downloaded from the Services. In addition, Mapbox may cancel or suspend your account for any reason by providing you 30 days' advance notice.
- 45 Upon cancellation or suspension, your right to use the Services will stop immediately. You may not have access to data that you stored on the site after we cancel or suspend your account. You are responsible for backing up data that you use with the Services. If we cancel your account in its entirety without cause, we will refund to you on a pro-rata basis the amount of your payment corresponding to the portion of your service remaining right before we cancelled your account.

Changes to services or terms

- 46 We may modify these Terms and other terms related to your use of the Services (like our privacy policy) from time to time, by posting the changed terms on the site. All changes will be effective immediately upon posting to the site unless they specify a later date. Changes will not apply retroactively. Please check these Terms periodically for changes - your continued use of the Services after new terms become effective constitutes your binding acceptance of the new terms.
- 47 We may change the features and functions of the Services, including APIs. It is your responsibility to ensure that calls or requests you makes to the Services are compatible with then-current Mapbox APIs. We attempt to avoid changes to our APIs that are not backwards compatible, but such changes may occasionally be required. If that happens, we will use reasonable efforts to notify you prior to deploying the changes.

Indemnification

- 48 You agree to indemnify and hold harmless Mapbox and its subsidiaries, affiliates, officers, agents, partners, and employees from any claim or demand, including reasonable attorneys' fees, arising out of:

- Your use of the Services;
- Your violation of these Terms;
- Your end users' use of the Services in or through an application or service you provide;
- Content you or your end users submit, post to, extracts from, or transmit through the Services.

2. Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works on Mapbox are covered by a single notification, a representative list of such works from Mapbox;
3. Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit Mapbox to locate the material;
4. Information reasonably sufficient to permit Mapbox to contact the complaining party, such as an address, telephone number, and, if available, an electronic mail address;
5. A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law; and
6. A statement that the information in the notification is accurate, and under penalty of perjury, that the complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

61

Additional terms

62

You agree to keep the contact information associated with your Mapbox account current and complete.

63

You may not encourage others to violate these Terms, including by selling products or services that would violate these Terms if the products or services are used in their intended manner.

64

You may not create multiple accounts for the purpose of increasing the free services that you receive under a Mapbox plan, and you may not purchase multiple Commercial Plans for the purpose of increasing the number of Seats that you are permitted to use in connection with your applications or the number of assets that you are permitted to track. These Terms shall benefit Mapbox and its successors and assignees.

- 66 These Terms are governed by and construed in accordance with the laws of California, without giving effect to any principles of conflicts of law. Any action arising out of or relating to these Terms must be filed in the state or federal courts for San Francisco County, California, USA, and you hereby consent and submit to the exclusive personal jurisdiction and venue of these courts for the purposes of litigating any such action.
- 67 A provision of these Terms may be waived only by a written instrument executed by the party entitled to the benefit of such provision. The failure of Mapbox to exercise or enforce any right or provision of these Terms will not constitute a waiver of such right or provision. Mapbox reserves all rights not expressly granted to you.
- 68 If any provision of these Terms is held to be unlawful, void, or for any reason unenforceable, then that provision shall be deemed severable from these Terms and shall not affect the validity and enforceability of any remaining provisions.
