

This SOFTWARE LICENSE (the "License") constitutes a legally binding agreement between Frontline Systems, Inc. ("Frontline") and the individual or organization ("Licensee") acquiring the right to use certain computer program products offered by Frontline (the "Software"), in exchange for Licensee's payment to Frontline (the "Fees"). This License governs the Software as installed for 'desktop' Use on a personal computer; and as installed on servers operated by Frontline for 'cloud' Use, where portions of the Software may be executed on the server or downloaded to a personal computer through a web browser or other application (including but not limited to desktop Excel). Unless replaced by a separate written agreement signed by an officer of Frontline, this License shall govern Licensee's use of the Software. BY DOWNLOADING, ACCEPTING DELIVERY OF, INSTALLING, INSERTING, OR USING THE SOFTWARE, LICENSEE AGREES TO BE BOUND BY ALL TERMS AND CONDITIONS OF THIS LICENSE.

1. LICENSE GRANT AND TERMS.

Grant of License: Subject to all the terms and conditions of this License, Frontline grants to Licensee a non-exclusive, non-transferable except as provided below, personal right and license to Use the Software (as the term "Use" is defined below) for the term as provided below, with the following restrictions:

Identity, Email and Password: Frontline's licenses enable *one individual person* to use the Software on *more than one* computer by identifying himself/herself with an email and password, or through another authentication system (including but not limited to Office 365). In consideration of this, Licensee agrees to provide and maintain a valid email address and password that is unique to and used only by the person who will Use the Software, whose personal first and last name is provided to Frontline. During the term of this license, Licensee agrees that the email address will be associated with an email account where the individual Using the Software regularly receives email, and that neither Licensee nor such individual will 'share' or provide the email address and password to any other person. Licensee agrees that Frontline's willingness to grant this License is predicated on Licensee's fulfillment of this obligation, and that evidence of Use of the Software by any other individual (for a Multi-User License, any other individual not identified to Frontline) shall constitute prima facie evidence of copyright infringement. If Licensee is an organization, it may, on a quarterly basis, or more frequently if Frontline agrees in its sole discretion, change the named individual(s) who will Use the Software, in accordance with the terms of this License.

Internet Access: Licensee understands that 'cloud' Use of the Software, whether through a web browser or another application (such as desktop Excel), requires a continuous, reasonably high speed connection through the public Internet to servers operated by Frontline, or alternatively through Licensee's own network to server software separately licensed from Frontline. In the course of "cloud" Use, Licensee's model(s) and/or data, and device/system information about the Personal Computer where the Software is being Used, may be transmitted over the Internet or Licensee's own network to Frontline's server software, using commercial-grade secure protocols.

Licensee further understands that, to support Use by one person on multiple Personal Computers, Frontline's license management software must, from time to time, access Frontline's servers via the public Internet, even when the Software is installed solely for 'desktop' Use on such Personal Computers. The length of time that the Software will be permitted to run without Internet-based access to Frontline's servers is a property of the license. Licensee agrees to arrange for periodic Internet access on the Personal Computers where Licensee wishes to Use the Software.

Personal Computers: Each of the License types below permits Use by one named individual on one or more physical personal computers and/or virtual computers, subject to limits established by Frontline from time to time, in its sole discretion, based on its estimate of how many different computers (for example, two to four) may reasonably be used by one individual. For a Multiple-User License as defined below, the limits established by Frontline will reflect the number of named individuals whom Licensee intends to share Use of the license. Licensee understands that Frontline's license management software may prevent Use of the Software on physical or virtual computers that exceed such limits.

Server Resource Usage Limits: For 'cloud' Use of the Software which involves consumption of computing resources on Frontline's servers, each license type imposes limits on the amounts of processor (CPU) time, memory and external storage that may be used within a given time interval, as a property of the license. Licensee understands that Frontline's license management software may prevent further Use of a license, during a given time interval, if the limits are reached. These limits do not apply to Use of Licensee's own computing resources at Licensee's own expense.

Evaluation License and Test Runs: If and when offered by Frontline for a limited Term determined by Frontline in its sole discretion, Licensee may Use the Software on one or more Personal Computers, but only one Personal Computer at any given time, for the purpose of evaluating suitability of the Software prior to Licensee's purchase of another license type. Such Use may permit only models and/or datasets of limited size, or may permit Use only to the extent needed to determine whether a model can be solved, without providing full solution information ("Test Runs"). No such Use shall imply any warranty of any kind, including suitability or fitness for a particular purpose; all warranties shall be as provided in Sections 2 through 4 of this agreement.

Single-User License: Upon Frontline's receipt of *payment* from Licensee of the applicable Fee (not merely an order) for a "Single-User License", Licensee may install and Use the Software, for a limited Term specified as part of the license, on one or more Personal Computers, but may Use the Software only on one Personal Computer at any given time.

Multiple-User License: If Licensee is an organization, it may purchase a license for Use by multiple named individuals, who may be employees, contractors or otherwise affiliated with the organization, and who are bound by written agreements to comply with Licensee's obligations, including those in this License. Upon Frontline's receipt of *payment* from Licensee of the applicable Fee (not merely an order) for a "Multiple-User License", and receipt of a list of named individuals, each with email address, password, and personal first and last names: Licensee and/or the named individuals may install and Use the Software, for a limited Term specified as part of the license, on one or more Personal Computers, but each Multiple-User license may be Used by only one named individual on one Personal Computer at any given time.

"Use" of the Software means the use of any of its functions to define, analyze, solve (using optimization, simulation, data mining or other analytic methods) and/or obtain results for a single user-defined model at a time. Use with more than one model concurrently, whether on one or several Personal Computers, requires more than one Single-User or Multiple-User License. Use occurs only during the time that the computer's processor is executing the Software; it does not include time when the Software is loaded into memory without being executed. The minimum time period for Use on any one Personal Computer shall be ten (10) minutes, but may be longer depending on the Software function used and the size and complexity of the model.

Other License Restrictions: The Software includes license management features that may store and communicate encoded information about the license type and term on the Personal Computer(s) and/or on Frontline's servers; Licensee agrees that it will not attempt to alter or circumvent such license control features. This License does not grant to Licensee the right to make copies of the Software or otherwise enable use of the Software in any manner other than as described above, by any persons or on any computers except as described above, or by any entity other than Licensee. Licensee acknowledges that the Software and its structure, organization, and source code constitute valuable Intellectual Property of Frontline and/or its suppliers and Licensee agrees that it shall not, nor shall it permit, assist or encourage any third party to: (a) copy, modify, adapt, alter, translate or create derivative works from the Software; (b) merge the Software into any other software or use the Software to develop any application or program having the same primary function as the Software; (c) sublicense, distribute, sell, use for service bureau use, lease, rent, loan, or otherwise transfer the Software; (d) "share" use of the Software with anyone else; (e) make the Software available over the Internet, a company or institutional intranet, or any similar networking technology, except as provided by Frontline; (f) reverse compile, reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code for the Software; or (g) otherwise exercise any rights in or to the Software, except as permitted in this Section.

U.S. Government: The Software is provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the U.S. Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c)(1) and (2) of the Commercial Computer Software - Restricted Rights at 48 CFR 52.227-19, as applicable. Contractor/manufacturer is Frontline Systems, Inc., P.O. Box 4288, Incline Village, NV 89450.

2. ANNUAL SUPPORT.

Limited warranty: If Licensee has a current license subscription with Annual Support from Frontline, then Frontline warrants, during the license subscription term, that the Software covered by the subscription will perform substantially as described in the User Guide published by Frontline in connection with the Software, as such may be amended from time to time, when it is properly used as described in the User Guide, provided, however, that Frontline does not warrant that the Software will be error-free in all circumstances. During the license subscription term, Frontline will make reasonable commercial efforts to correct, or devise workarounds for, any Software errors (failures to perform as so described) reported by Licensee, and to timely provide such corrections or workarounds to Licensee.

If Licensee has a current license subscription with Annual Support for 'cloud' Use of the Software from Frontline, then Frontline also warrants, during the license subscription term, that the Software will use commercial-grade secure methods for transmission and temporary storage of Licensee's information (including models and data), and that Frontline's server software will delete any temporary copies of such information immediately after the conclusion of each Use. Frontline may, but is not required to maintain a log of Uses of its client and server Software.

Disclaimer of Other Warranties: IF THE SOFTWARE IS COVERED BY A CURRENT LICENSE SUBSCRIPTION, THE LIMITED WARRANTY IN THIS SECTION 2 SHALL CONSTITUTE FRONTLINE'S AND ITS SUPPLIERS' ENTIRE LIABILITY IN CONTRACT, TORT AND OTHERWISE, AND LICENSEE'S EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY. IF THE SOFTWARE IS NOT COVERED BY A CURRENT LICENSE

SUBSCRIPTION, FOR EXAMPLE IF LICENSEE PERMITS THE SOFTWARE LICENSE SUBSCRIPTION TO EXPIRE, THE LIMITED WARRANTY IN THIS SECTION 2 SHALL NOT APPLY.

3. WARRANTY DISCLAIMER.

EXCEPT AS PROVIDED IN SECTION 2 ABOVE, THE SOFTWARE IS PROVIDED "AS IS" AND "WHERE IS" WITHOUT WARRANTY OF ANY KIND; FRONTLINE AND, WITHOUT EXCEPTION, ITS SUPPLIERS (COLLECTIVELY, "LICENSORS") DISCLAIM ALL WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO THE SOFTWARE OR ANY WARRANTIES ARISING FROM COURSE OF DEALING OR COURSE OF PERFORMANCE AND THE SAME ARE HEREBY EXPRESSLY DISCLAIMED TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW. WITHOUT LIMITING THE FOREGOING, LICENSORS DO NOT REPRESENT, WARRANTY OR GUARANTEE THAT THE SOFTWARE WILL BE ERROR-FREE, UNINTERRUPTED, SECURE, OR MEET LICENSEES' EXPECTATIONS. LICENSORS DO NOT MAKE ANY WARRANTY REGARDING THE SOFTWARE'S RESULTS OF USE OR THAT THEY WILL CORRECT ALL ERRORS. THE LIMITED WARRANTY SET FORTH IN SECTION 2 IS EXCLUSIVE AND LICENSORS MAKE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS WITH RESPECT TO THE SOFTWARE, ANNUAL SUPPORT, AND/OR OTHER SERVICES PROVIDED IN CONNECTION WITH THIS LICENSE, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT.

4. LIMITATION OF LIABILITY.

IN NO EVENT SHALL LICENSORS HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION ANY LOST DATA, LOST PROFITS OR COSTS OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES), HOWEVER CAUSED AND UNDER ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THE SOFTWARE OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. BECAUSE SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY. NOTWITHSTANDING ANYTHING HEREIN TO THE CONTRARY, IN NO EVENT SHALL LICENSORS' TOTAL CUMULATIVE LIABILITY IN CONNECTION WITH THIS LICENSE, THE SOFTWARE, AND ANY SUPPORT PROVIDED TO LICENSEE HEREUNDER, WHETHER IN CONTRACT OR TORT OR OTHERWISE EXCEED THE PRICE OF ONE SINGLE-USER LICENSE. FRONTLINE'S SUPPLIERS ARE INTENDED BENEFICIARIES OF THESE LIMITATIONS AND DISCLAIMERS, AND THIS LIMITATION OF LIABILITY FOR FRONTLINE AND ITS SUPPLIERS IS NOT CUMULATIVE. LICENSEE ACKNOWLEDGES THAT THIS ARRANGEMENT REFLECTS THE ALLOCATION OF RISK SET FORTH IN THIS LICENSE AND THAT LICENSORS WOULD NOT ENTER INTO THIS LICENSE WITHOUT THESE LIMITATIONS ON ITS LIABILITY. LICENSEE ACKNOWLEDGES THAT THESE LIMITATIONS

SHALL APPLY NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

LICENSEE UNDERSTANDS AND AGREES THAT ANY RESULTS OBTAINED THROUGH LICENSEE'S USE OF THE SOFTWARE ARE ENTIRELY DEPENDENT ON LICENSEE'S DESIGN AND IMPLEMENTATION OF ITS OWN OPTIMIZATION, SIMULATION OR DATA MINING MODEL, FOR WHICH LICENSEE IS ENTIRELY RESPONSIBLE, EVEN IF LICENSEE RECEIVED ADVICE, REVIEW, OR ASSISTANCE ON MODELING FROM FRONTLINE.

5. TERM AND TERMINATION.

Term: The License shall become effective when Licensee first downloads, accepts delivery, installs, inserts or uses the Software, and shall continue for a limited term specified as part of the License, unless earlier terminated for breach pursuant to this Section.

Termination: Frontline may terminate this License if Licensee breaches any material provision of this License and does not cure such breach (provided that such breach is capable of cure) within 30 days after Frontline provides Licensee with written notice thereof.

6. GENERAL PROVISIONS.

Proprietary Rights: The Software is licensed, not sold; title to the Software remains with Frontline and its suppliers. The Software and all existing and future worldwide copyrights, trademarks, service marks, trade secrets, patents, patent applications, moral rights, contract rights, and other proprietary and intellectual property rights therein ("Intellectual Property"), are the exclusive property of Frontline and/or its suppliers. All rights in and to the Software and Frontline's other Intellectual Property not expressly granted to Licensee in this License are reserved by Frontline. For the Large-Scale LP/QP Solver only: Source code is available, as part of an open source project, for portions of the Software; please contact Frontline for information if you want to obtain this source code.

Amendments: This License constitutes the complete and exclusive agreement between the parties relating to the subject matter hereof. It supersedes all other proposals, understandings and all other agreements, oral and written, between the parties relating to this subject matter, including any purchase order of Licensee, any of its preprinted terms, or any terms and conditions attached to such purchase order.

Compliance with Laws: Licensee agrees it will not export or re-export the Software without all required United States and foreign government licenses.

Assignment: This License may be assigned to any entity that succeeds by operation of law to Licensee or that purchases all or substantially all of Licensee's assets (the "Successor"), provided that Frontline is notified of the transfer, and that Successor agrees to all terms and conditions of this License.

Governing Law: Any controversy, claim or dispute arising out of or relating to this License, shall be governed by the laws of the State of Nevada, other than such laws, rules, regulations and case law that would result in the application of the laws of a jurisdiction other than the State of Nevada.
